FOR IMMEDIATE RELEASE

China Welcomes A New King of the Waves – The Sunseeker 80 Yacht

(Sanya– February 24, 2010) An exquisite Sunseeker 80 Yacht has docked in Sanya, Hainan, making it the biggest Sunseeker yacht in Chinese' waters. It confirms Sunseeker China as the undisputed market leader in the Chinese luxury yachting industry and cements Sanya's position as the regional HQ.

This 80-foot behemoth of pure luxury has been purchased by an anonymous buyer from Beijing and will arrive at the Visun International Marina Club in Sanya in early February 2010. Incredibly, it won't be the only boat catching the eye. Also on display will be a Sunseeker Manhattan 70 flybridge motoryacht, bought by Nine Dragons Marina managing director Mr Li Qinfu.

The visible presence of such an elite brand provides a notable boost for the Chinese yachting industry and proves once again that if the ultimate status symbol is a yacht, then the ultimate style statement is a Sunseeker Yacht.

Unquestionably the Sunseeker 80 maintains Sunseeker's tradition of high performance and technical excellence. From the outset it is a picture of magisterial beauty. At 80-ft long it is the largest Sunseeker yacht to call China its home, and is propelled by a monstrous engine. Cruising speed is a crisp 22 knots (40.7 km/hour) and can be used for a range of around 350 nautical miles. Furthermore, at full throttle it will surge to 30 knots (55.6 km/hr), which offers a genuine sense of dominion over the waves.

On top of these compelling statistics you'll find aesthetics which have proved the making of the brand. They have combined clean, and utterly comfortable modern styling with an old world attention to detail.

She boasts a large flybridge providing separate helm positions as well as ample seating and sunbathing space. Added to that, a large aft submersible bathing platform provides more than enough room for a tender or some jet skis. With this yacht Sunseeker continues to set the standards of refinement and luxury that have become the benchmarks in their class.

“Sunseeker China’s goal is to bring the ultimate in luxury living to our customers,” explained Traugott Kaminski, CEO of Sunseeker China. “Our bespoke customization services allow our customers to tailor every bit of the interior and layout of their boats, be it the type of leather used in the furniture, to the sound their bedroom lights make when they are turned on, the possibilities are truly endless, ensuring that every Sunseeker Yacht owner has a truly unique yacht. Every Sunseeker is made at the original factory in England, ensuring it is made with the same uncompromising approach to quality.”

The fact that this new arrival is Sunseeker's largest luxury yacht in Chinese waters is a watershed moment. It is a clear indication of the direction of the Chinese luxury yachting market and represents just the beginning of what is to come.

To aid and meet this inevitable growth, Sunseeker China has a bold plan. They will open a new flagship store and service centre right at the Visun International Marina in Sanya. This sprawling 420 square meter haven of expertise will provide a whole host of top quality services, from selecting the boats in China to crew training and after-sales service.

This new flagship store is also yet another indication of Sunseeker China’s determination to provide the very best in yachting to its customers, and emphasises Sunseeker China’s preeminence in the luxury yacht scene.

All told therefore, with its ideal geographical location and elevated position as a premium tourist destination, Sanya and Sunseeker are set to become the epicentre and star player of the Chinese yachting industry.
